PRODUCT CATALOGUE
2023

The growing role of pets in the family is supported by an important evolution of the relationship between people and pets, which ultimately triggers a greater attention from the industry which is presenting an increasingly diversified and suitable range of products aimed at their needs.

This renewed attitude towards pets has led SILC SpA to create a brand capable of responding to the needs of several people who are particularly careful to guarantee the best possible quality of life for their pets: BeautyCase® Pet.

BeautyCase
IGIENE E CURA PER PICCOLI ANIMALI
pet

SILC SpA is a leading Italian company that produces and distributes absorbent products for the person since 1972, and cosmetics since the first 2000s. With extreme attention on high quality and safety standards, SILC SpA has been present in the petcare industry since the year 1996, where it has been a leader especially in the market of absorbent pads.

More recently SILC SpA has started a profound rebranding activity, which resulted in a renewed design of the packaging and to a much wider assortment of products for the hygiene and care of all size pets (absorbent pads, wet wipes, shampoo, balm and sanitizing detergents for surfaces and floors).

ABSORBENT PADS

The new BeautyCase® Pet Absorbent Pads are the perfect solution for pets to relieve themselves on a comfortable and effective disposable hygienic support.

Ideal at home as a practical and clean protection for all those areas where the animal usually stops too (armchairs, sofas, carpets, etc ...). Very comfortable even when traveling by car or in other circumstance away from home.

High quality raw materials

The product's surface is dermatologically tested **fabric to minimize contact irritation.**

The cellulose, which is the most significant element of the product's core, **is 100% PEFC certified.**

Comfortable adhesives are applied to fix the pad to the floor.

A very high absorption capacity and acquisition speed with a powerful retention capacity. BeautyCase® Pet pads a top-of-the-range performance profile.

The cellulose pad core is blended with the latest generation of super absorbent polymers (SAP).

The unique comfort of the polymer thanks to its rounded morphology without edges **minimizing the risk of micro-perforations of the pad too.**

The polymers also help **prevent and mitigate the onset of unpleasant odors.**

The wide assortment of pads differs both in terms of size and absorption capacity.
